- What are change processes and why are they so difficult?
- Phases in the change process?
- The importance of emotions in the change process?
- Constructive strategies for dealing with change and resistance?

How do we want to achieve this? - With these two core elements:

LZ Job Market Survey (until May 23, 2024):

...Your opinion matters to us!

What do you want to earn?

Which companies are your top choices for your career?

How important is sustainability to you and what values are important to you?

These and many other questions are answered by the LZ Job Market Survey, in which students and young professionals can participate.

Join now and win great prizes!

...And, in addition, actively shape the industry for the future.

Take the survey [here](#).

LZ Career Forum (June 8, 2024):

AROUND THE CAMPUS

LET'S GET INVOLVED TOGETHER! -
FOR MORE TOGETHERNESS!

What we want:

- Establish a student group
- Bring color into the rather dull everyday life of refugees
- Develop and implement ideas together on how we can support refugees in Geisenheim
- 1-2 meetings per month to plan and implement ideas

Why you should get involved with us:

- Gain experiences that enrich your life and shape you personally
- Work together for a better future
- Recognition and appreciation
- Positive impact on your resume

Contact us at StudIP „Gemeinsam engagieren wir uns“ or internationalbuddy@hs-gm.de.

The International Office wants to initiate a student group that advocates for refugees in Geisenheim. The idea is to distribute responsibilities among many heads, so that each person only has to make a small, manageable contribution. This should enable all students to engage in volunteer work alongside their studies. The activities of the group should be decided by the group itself and will certainly depend on individual skills. Examples could include organizing game afternoons, homework assistance, translation services, etc.

DRINK INNOVATION CHALLENGE #3

For the third time, the Gründungsfabrik Rheingau is launching an exciting competition for innovative and sustainable ideas for drinks of the future. There are cash prizes and a prototype production to be won.

We are looking for fresh ideas, creative brainstorming and lively approaches for a beverage of the future. You can approach the task from many angles. Is it a special taste experience or a product that is missing on the market? Does it contribute to health or is it simply fun? The only important thing is that your drink has an innovative character and that aspects of sustainability are taken into consideration. In this context, we recommend attending the workshop „Sustainable Beverages - how to go green“ with Prof. Dr. Moritz Wagner on April 16 at the Gründungsfabrik.

But it is certainly your incentive. Because the winning drink - in addition to EUR 1,500 in prize money - will win a prototype production and thus the crown of the competition: YOUR DRINK COMES TRUE!

The goal: The best ideas will pitch on June 6, 2024 at the final of the Drink Innovation Challenge 2024 as part of the MEET career fair at Hochschule Geisenheim University in front of an expert jury of representatives from the university and the beverage industry and will then be chosen. This is not only a great experience, but also offers exciting contacts in the industry. The way: Your application

At: <https://gruendungsfabrik-rheingau.de/kalender/dic24/>

you will find the exact conditions of participation

as well as an idea sketch to download. Simply fill it out and then upload it to the website with details about yourself or the participating team. All employees and students are invited to take part. Take part! No idea is superfluous. The closing date for applications is May 13, 2024. Any questions? dirk.klinner@hs-gm.de or 06722.402 50 52

LET'S GO - NEUIGKEITEN AUS DEM GREEN OFFICE

We are the Green Office (or Sustainability Office) of our university and take care of all sustainability issues in research, teaching and operations at HGU. Our eight-member team consists of four permanent employees and six student employees who are passionate about initiating and supporting transformation at our university.

Here you'll find all the latest news from the Green Office and on sustainability at the university.

What's on?

SustainTable – Come to the table and turn potentials into projects!

The Green Office would like to invite you to SustainTable in the summer semester. What is it? SustainTable provides a framework for initiating the changes you want to see at our university - we provide support with methods, know-how, and contacts, and bring together everyone (students, staff from research, teaching, and administration) at one table.

The goal is to increase sustainability and quality of life on our campus. For example, last semester, the „Foodsharing on Campus“ project was created.

Initially, we will identify potentials such as best practices, project ideas, and common interests, and then in later sessions, we will develop concrete projects through planning and implementation. Are you interested in swap events and supporting refugees, planning for clean-ups and clothes swaps? How do you want to experience lived sustainability on our campus? Come along and get involved!

All information on StudIP.

The SustainTable is available every 2 weeks and welcomes guests.

Next session: April 24th, 3:00-4:30 pm in the cafeteria.

A fair university: Workshop

For almost a year, we have been the second university in Hesse to be a Fairtrade University, made possible by the work of the steering committee including the cafeteria. What makes a Fairtrade University?

With the decision and the label, we commit to:

- Offering public relations and events (2x per semester)
- Integrating fair products into our university routine, e.g. in meetings
- Inclusion of students and staff in the process

AROUND THE CAMPUS

How we fill these criteria is our decision, our scope.

We can use the obligations for the label to create the events, inclusive processes, etc., that we would like to see at our university.

Instead of a meeting, you are invited to a cheerful, co-creative, and collaborative workshop where you will be guided to develop your ideas and implementation steps for this and possibly the next semester together and benefit from your different perspectives and experiences. The workshop is open to all who are willing to experiment with what can emerge in a collective process.

If you want to participate, please write a short email to vanessa.mark@hs-gm.de.

When: April 25th, 1:00-4:30 pm, Monrepos Lecture Hall 10

ICA Biodiversity Challenge

For the second year in a row, Geisenheim University is participating in the ICA Biodiversity Challenge/BioBlitz from May 2nd to June 28th, 2024, as a member of the „Association for European Life Science Universities“ (ICA).

A BioBlitz is an attempt to count the number of species found on campus. Everyone can participate and enter species into the Observation.org, Obsidentify, or Obsmapp apps. The number of species registered in the app can be tracked in real-time. In addition, the progress of other participating institutions can be followed live.

This dedicates us to the important topic of biodiversity on and around the university campus in the form of an interactive participation action for students, staff, and residents. Together with many helping hands, Geisenheim University achieved 7th place in the ranking in 2023. In total, 744 species were identified, so the goal for 2024 is clear: This year we want to improve our result from last year and maybe even break the mark of 1000 species.

Further information about the program will follow in the event calendar and on the website!

Switzerland convicted for inadequate climate protection measures

The European Court of Human Rights (ECHR) has for the first time convicted a country for inadequate climate protection. The Strasbourg court ruled in favor of a group of Swiss seniors who accuse their government of violating their human rights through inadequate climate protection. Switzerland must now review its climate protection policy. Climate activists hope for a signaling effect for other countries, although further complaints from France and Portugal have already been directed by the ECHR. According to independent scientists, no country can currently meet the requirements of the Paris Agreement to limit global warming to below 2°C. Here is the [mdr](#) article on the topic.

Was ist die Glugg?

Auf der Glugg Vol. 2, der alternativen Weinmesse im Rheingau stellen sich verschiedene Persönlichkeiten mit einer Auswahl ihrer einzigartigen Weine vor. Wie die Weine, präsentieren sich die WinzerInnen ganz ohne schnick schnack sondern einfach so wie sie sind - individuell und unverblümt. Dennoch setzen sich alle Eines auf die Fahne, es geht um das Zurückbesinnen auf die Wurzeln des Weinbaus, die Achtung des Bodens sowie die Förderung der Rebengesundheit und das Ganze innerhalb einer Gemeinschaft.

Teil dieser Gemeinschaft sind Newcomer wie auch ein paar alte Rheingau Hasen:

- Cosi & Nik / Weingut Prana, Oestrich-Winkel
- Yvette & Florian / Weingut Wohlfahrt-Franke, Geisenheim
- Alex / Weingut Alexander Schregel, Rüdesheim
- Till / Weingut Till Beierle, Rüdesheim
- Alex / Saltaren Wines, Oestrich-Winkel
- Freddy / Frederik Schulte, Oestrich-Winkel
- Franzi / Weingut Ferdinand Herke, Oestrich-Winkel
- Laurin / Weingut Eberling, Oestrich-Winkel
- Kristina & Kai / KMH Weine, Kaub
- Luisa & Elias / Weingut Hainbusch, Kaub
- Manu / Chin Chin Vinothek, Geisenheim

Grundvoraussetzungen aller zu verkostenden Weine auf der Glugg Vol. 2 Weinmesse sind handgelesene Trauben, Spontanvergärung, keine Schönung während der Weinbereitung und keine Filtration. Wenn überhaupt werden die Weine mit einer geringen Zugabe von Schwefel abgefüllt.
